

To whom it may concern

On behalf of Yates Construction, it has been a pleasure to work with the team at Atlantic Doors and Hardware on the following project. The Isle of Capri Casino, Pompano Beach.

The Atlantic Door & Hardware Team have acted professionally, from their clear and concise scope of work, accurate shop drawings, expedited delivery, installation, punch out to final closeout. Installation was performed based on a 7 day work week to complete our fast tracked project at Isle of Capri. They were able to work with the owners architect and design team to provide solutions to a very complicated door, frame and hardware package. All aspects of the job were well coordinated. Even last minute changes were accommodated with little effort.

With Sean and Brian's experience with the intricacies of these types of projects, and their hands on approach, we were able to turn over our projects on schedule in spite of the limited time constraints.

ADH has proven excellence in both product and workmanship. We highly recommend Atlantic Doors and Hardware for all your door and hardware needs.

Sincerely

A handwritten signature in blue ink, appearing to read "Pete Yastremski", is written over the word "Sincerely".
